

Drowning NYC
www.drowning-nyc.net

Message of help by Jason Gompers:

PLEASE HELP ME! The sea is rising coz of global warming and BHSEC is going to drown with all the LES Manhattan neighborhoods!

Meanwhile Michael Meyer and his Future Water Proof Corp. want to capitalize on climate change. They want to kick us out and build a fucking water park on our homes. Check this shit out:

<http://www.futurewaterproofcorp.com>

<http://www.youtube.com/watch?v=RTzwMsVi0Cw>

F.W.C.P. poses a major threat to Bard High School Early College, East River Park and to all of us - the residents - the vital force of the land.

These douchebags don't care about our neighborhood, don't care about our schools, our homes, our families, our histories - they don't give a fuck about our community! Rising sea levels are a serious concern for New Yorkers, not an opportunity for corporate fucks to exploit.

Today, the people are fighting back. We won't be displaced so Michael Meyer can build his fucking Water World condos! The answer is NOT to adapt and CAPITALIZE. And definitely not to be moved out of the LES. We must change our ways and fight to STOP GLOBAL WARMING.

Enter the Future Climate Change Fighters NYC. Read our MANIFESTO. Join the movement! Show your support by clicking the 'Like' button on our group page:

<http://www.facebook.com/pages/Climate-Change-Fighters-NYC/116705608386337>

Write on our wall and tell us what you think!

It is time to take action. Reply to videos on our youtube channel. Spread the word on Facebook. Let's tell these fuckers what we really think about their business. Defame the company on Twitter with the tag @fwpcorp.

We can't sit idly by and watch these monsters gentrify our space! We gotta engage.

For more information on our war with FWPC, see <http://drowning-nyc.net>

With respect and urgency,
Jason Gompers and Clint Stuy
YO!
